BE \$NUTS

About NUTS Token

It started with: “Let’s create a nonsense coin to test the Issue Token function on the Elrond Network.” And the “nonsense” evolved into: How about we give Deez \$NUTS a real purpose?

The name “NUTS” was inspired by what arrived in the mail that day. 

\$NUTS will be used to provide liquidity for the Web3 MEMEverce community, an idea that highlights the MEME world into the Elrond blockchain. The first truly MEME coin on Elrond.

When it comes to crypto currencies, the Elrond Community is one of the most active and committed communities on social media. We aspire to be a token of a large and powerful community that supports the MEME space and its content creators all over the world. It's time to turn MEMES into pieces of art and to launch them into the marvelous world of Blockchain technology.

\$NUTS will not only be about NFTs and MEMES, but we also aim to provide liquidity for all ecosystems: e-commerce, trading, paying sex workers (just kidding, OR...imagine going to your fav Sexy Squirrel 🦫 with blue \$NUTS 💎 and coming back home with crystal 🧙 \$NUTS 😄)

3rd Project - \$NUTS Utility: Tips for MEMES

Memes highlight the impact of community connectedness. However, memes are only a metaphor for the massive change the Internet has brought upon human communication.

Together, online communities are building things that are universal in any country and culture. Memes serve as a form of expression that can often convey emotions that are extremely hard to describe. They're one of the most significant forms of communication in the world.

There are several **MEME** coins in the **crypto** world that have grown in popularity only due to the strength of those communities around the world, but few have shown gratitude.

Once the Maiar Exchange listing is complete and our coin has actual value in the Crypto world, we would like to collaborate with MEME communities all over the world to reward the MEME content creators who devote their spare time and passion to making people laugh.

We would love to see our community members tipping their favorite content creators with \$NUTS.
